Forecast for Sunday 20 Dec 2020

Weather: Some isolated showers around before dawn but some dry weather too and some clear spells. During the day showers will continue, these will be quite frequent around lunchtime and will probably die out by late afternoon. Some sunny or bright spells expected during the day and most likely a clear dry evening.

Chance of cloud free mountain/hill tops above 800m: 60% chance of cloud free tops, cloud will fall below the tops in showers for periods of time, cloud will fall to around 600m in heavier showers. Good opportunities for clear tops during the day too.

Visibility: Good or very good outwith showers but becoming poor in sleet or snow showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Freezing level lowering to 900m at times allowing for wintery showers on the higher mountains and feeling very cold.

Forecast for Monday 21 Dec 2020

Weather: Some frontal rain is expected to spread across the Snowdonia from the south in the morning, it will mainly be light and drizzly at first but a few heavier spells are likely. Turning clearer later in the day.

Maximum wind: Southerly 20mph gusts 30mph veering westerly and then Northwesterly later

Chance of cloud free mountain/hill tops above 800m: 20%, a lot of low cloud will spread across the area with the rain, cloud bases are likely to be down to 300m at times. Low cloud will lift and clear in the evening time.

Visibility: Visibility will be moderate at best and often poor in light rain and drizzle

Temperature: **Valleys:** Plus 4 rising to plus 8 Celsius.
At 800m: Plus 1 Celsius rising to plus 4 Celsius then falling to zero later.
Freezing level: 900m rising well above the summits then falling to 700m later
